Project description: www.ukraine.savethechildren.net;

The "EU4Youth – Better skills for a better future" project contributes to developing the entrepreneurial potential of disadvantaged youth, ensures their increased access to education and training opportunities for greater employability, as well as advocates for coherent and cross-sectoral youth policies at local, regional and national levels.

**Social media account links:****Expected results:**

- Improved key development competencies of youth to boost their skills, knowledge, attitudes and behaviours as economic actors in the labour market.
- Increased employability and civic participation of disadvantaged youth through sustainable employment creation and entrepreneurial opportunities.
- National cross-cutting youth policies are effective, gender sensitive and inclusive through youth engagement in multi-stakeholders policy dialogue.
