EaP countries:

Azerbaijan, Armenia, Georgia, Republic of Moldova, Belarus, Ukraine

EU contribution: € 12 600 000

Project website: <https://www.eu4energy.iea.org/>

Project description:

Improving the quality of energy data and statistics is key to sound policy-making. Working with the six countries of the of the European Partnership and five Central Asian states, the EU4Energy data project provides support to statistics agencies in the region to improve energy statistics and data management and to expand their use in evidence-based policy making.
