

EU4Digital Broadband Strategies in the EaP region

Priority area:

Economic development and better market opportunities, Economy & trade; Economic development and better market opportunities, Employment and entrepreneurship

Period of implementation: 01.01.2018 - 31.12.2020

EaP countries:

Azerbaijan, Armenia, Georgia, Republic of Moldova, Belarus, Ukraine

EU contribution: € 1 000 000

Project description:

The EU-supported project, implemented by the World Bank, supports the Eastern Partner countries in their development and early implementation of national broadband strategies, in line with relevant EU best practices and strategies, by providing technical assistance and capacity building support.

Expected results:

The project carries out the following activities:

- Benchmarking Study and Gap analysis;
- Support to improve legal and regulatory frameworks;
- Support broadband mapping;
- Promote the sharing of experiences and best practices;
- Formulate and support implementation of broadband strategies.
