

Statistics for the Eastern Partnership (STEP)

Priority area:

Economic development and better market opportunities,
Economy & trade

Period of implementation: 01.01.2019 - 31.10.2021

EaP countries:

Ukraine, Georgia, Armenia, Republic of Moldova,
Azerbaijan, Belarus

EU contribution: € 4 700 000

Implementing organisation(s):

Eurostat, Expertise France

Project website: <https://www.expertisefrance.fr/en/fiche-projet?id=731126>

Project description:

The project aims to improve and harmonise the production of statistical data in the Eastern Partner countries by aligning them with European standards, thereby enhancing the political decision-making based on the statistical instrument.

Expected results:

The main activities are:

- provision of technical assistance by European experts,
- preparation and implementation of surveys,
- organisation of meetings, seminars, workshops and trainings,
- production of statistical publications for the region.

The project is managed by Eurostat.
